FATAL ERRORS.

The thought that comes most naturally to the mind when one reads of a person being killed by poison through mistake in a bottle is wonder at the carelessness displayed. The carelessness is in putting a deadly poison in close juxtaposition with a harmless medicine which has to be taken frequently. But it is a very easy thing to go to a shelf or closet and happen to take the wrong bottle. This is what cost Mr. Busn, of Brooklyn, his life yesterday.

Poison is something needed so rarely that it is only ordinary prudence to put it where it cannot be gotten without some most obvious way to prevent such fatal Dumas's object was wholly lost. mistakes, and it is surprising that any one should fail to do this.

Mr. Busn's unfortunate mistake is to be deeply deplored. He was a man of fifty, with family, good social position and wealth. He is better known as the owner Dauntless in a transatlantic race of be cut of from all this through a little but they will "out." carelessness makes death a painful trag-

ELECTRIC CASUALTIES.

After awhile the newspaper account of a lineman roasted to death will be as much of a commonplace in tragic casualty to be loaded, or from mistake in taking a poison instead of the prescribed medi-

The death of Lineman Passes startled bedy else a "lunkhead (whatever that may be); picture this Parisian siren in a wig that the community as probably no other from didn't nt, and with a buge dank of red on general regulations as those of its similar pink, or creamy white. So, please don't tell me that it was and the borror of it came home very a first preference of the public of dowers or foliage. Of course and the borror of it came home very a first preference on the publication of this notice, and the publication of this notice, and the publication of this notice. and the horror of it came home very a first performance and all that kind of date for its close will be announced suffistrongly because of its novelty. For thing, I say it was cruel, the kind of cruelty days men shuddered over the thought of they have practised in the dark ages. the unfortunate man hanging tangled in the wires high in the air, a smoking

Almost the same accident occurred last evening. A lineman sent to repair the dead samest, instead of being light and inelectric light in front of the Park Thestre credulous. Victor Luckaye, as Pierre, looked dressed to Marriage Age Editor, Eventson was killed by receiving a shock, due to a like a retired butcher, and acted very much defectively insulated wire. The accident like one. Miss Alice Fisher was fearfully was largely due to the lineman's own loud and boisterous as the mother. Miss neglect, as he did not wear rubbergioves. But one benefit from such unfortunate have been wofully misdirected. By the by accidents may be to keep the electric light companies keyed up to a careful inspection of the wires and to stir linemen to precautions in their work.

THE NEW ELECTION LAW.

Another trial of the new Election Law will be held to-day at Williamsbridge, Westchester County. It will be watched closely by everybody interested in nolitical reform. The experiment with this new ballot law at Far Rockaway was not made under conditions which afforded an altogether satisfactory test of its merst.

The estimate of expenses for the coming elections made by the Police Commissioners yesterday shows an excess of \$150,000 over the east of the last election. An item of \$30,000 is for polling booths to be built on the sidewalks. These booths will be used only for this election, since the fact that the new system which demands them is will on trial did not warrant giving them the solidity of booths

known to be needed permanently. But the extra expense due to giving the new law a trial is well made. Several hundred thousand dollars would not be too great a price to pay, if necessary, for a clean, lawful bulloting. That is what the new Election law aims at securing. It is to be hoped that it will succeed.

A young man in a rowing party in which

his profit anyhow, so that when he has to pay more for his goods the public has to pay more for them. Iftgh Tariff hits the people the hardest.

The American style of duel which consists in two men banging away with their guns at each other, the first time they meet after a quarrel, lacks the courtesy Should Husband and Wife Be and primness of the French duel, but is ever so much more deadly as a rule. Two roung men of Alabama were both killed y this sort of shooting.

When the brick manufacturers seek to have Walking Delegates indicted for con- The "Evening World" Offers a spiracy it may occur to the average mind that the same charge could be made against the combination and strategic neasures of the manufacturers. If the Delegates are conspirators are not the manufacturers also such?

Another Great Problem That Affects Its Happiness.

Near the Same Age or Should the Wife Be Much Younger?

Golden Double Eagle for the Best Answer.

"She is too young for you," said a wise natron to a man of thirty-four who appeared to be smitten with a girl of nineteen. 'Do not marry her. Your tasies are not in common through the difference in your ages. Things that please her most you may find frivoleus. and your enjoyments she may think old

The CLEMENCEAU CASE.'
Those who have read the younger Dumas snovel. The Clemencean Case, will readily acknowledge that the telented sulfur had situated object in view, to reach which he was obliged to linear at that dividing line between the showable and the unallowable that has been skitched by society in good, stont colors.

In fact the younger Dumas, like Tolston, evidently felt that he was called upon to administer to the emotional relief of the world doubt. As the undid servant at stated interest with a decide and married women of their own years, and cleanse, and frequently only to find that it did not need dusting and cleanse, and frequently only to find that it did not need dusting and cleanse, and frequently only to find that it did not need dusting and cleanse, and frequently only to find that it did not need dusting and cleanse, and frequently only to find that it did not need dusting and cleanse, and frequently only to find that it did not need dusting and cleanse, and frequently only to find that it did not need dusting and cleanse, and frequently only to find that it did not need dusting and cleanse, and the polishes them, and they meed not am own age. You will be happier."

But was she right?

Is this not one of the great questions?

Do not marry a woman your own age, said another matron, equally wise.

Wed a girl at least ten years your junior. Wed a girl at least ten years your junior. Wed a girl at least ten years your junior, will not need the matron of the married young. The polishes them, and they meed not am own and the most of trail that it did not need dusting and cleansing, so will take down from its lofty positions the old and reconvized china to dust and cleanse, and frequently only to find that it did not need dusting and cleansing, so will the literary servants of the world married young and cleansing.

The Tolstors and the pushed the matron of the world and the world and reconsidered there is a made cleanse, and the matical trails and the world and reconsidered there is a made clea
